

KWINTET Group and Kwintet AB, a Swedish- based buying house for professional wear with global network, gave a generous donation to RIB for the construction of Kajoli centers and their management in Northern Bangladesh.

The Kajoli centers, which number over 200 are located in the districts of Panchgarh and Nilfamari. They are essentially community nurtured and owned, while RIB plays a role in training of teachers, supplying learning materials and organizing other activities that do not destroy the ownership of the centers by the community and rather ensure its sustainability. RIB is grateful to Kwinet for its understanding of this aspect of the program and appreciates the generosity and support.
